

Usage:

Disassemble the belt clip from the tape housing with screwdriver.

Fix the special plastic part to the tape housing with special screw attached.

Belt Tape Holder 1

Clip the Belt Tape Holder on the belt.

Insert the special plastic part on the tape housing into the Belt Tape Holder until you hear the sound "click" .

Push out the button on Belt Tape Holder with thumb and pull upward the tape housing.

Precautions :

- Be sure to lock the position of the special plastic part before use.
- Tighten the screw when installing the tape measure, but do not let the screw head deform.
- Please stop using the product when it is distorted or damaged by the product.
- Do not disassemble or process the product.
- Do not use outside the specified use.
